ECO RESORTS WORLDWIDE

AQUACITY, SLOVAKIA

Eco-friendly spa resort that uses geothermal water, solar power and wind turbines to heat the resort's two hotels, luxury spas and huge water park, and supply its electricity. AquaCity has been voted the World's Leading Green Resort by the travel industry.
www.aquacityresort.com

TORRI SUPERIORE, ITALY

Torri Superiore, near the Italian Riviera resort of Ventimiglia was a 13th century abandoned village until it was bought by an environmental group. It's now been transformed into an eco-village with a guesthouse for those interested in sustainability and a restaurant serving organic and locally grown produce. There's pottery, cookery, yoga and massage workshops too.
www.torri-superiore.org

HAMEAU DE PEEMOR PEN, BRITTANY, FRANCE

A village of 94 Breton holiday homes heated by geothermal energy from deep underground. The village encourages everyone to cycle too, with big cycle stores and an easy flat ride to the beach 1km away.

FROM SPAIN TO SOUTH AFRICA

TENIQUA TREETOPS GARDEN ROUTE, SOUTH AFRICA

Stay up in the forest canopy in a luxurious tree-house built on a hand-crafted platform by workers who live within walking distance. Water is pumped from a river or collected by rainfall and there's even an ecological sewage system.
www.teniquatreetops.co.za

BOCA DE IGUANAS, MEXICO

A car-free eco-village alongside a protected mangrove ecosystem on a pristine stretch of Mexican coast. It includes an holistic spa, solar power, underground utilities including comprehensive recycling system and electric transport system. Each building has an inbuilt 'cave' as a home for bats and there's a seasonal sea turtle sanctuary.
